

Electrically welded tube - cod. 001

Electrically welded round tubes, for plants operating in low pressure, are produced in according to EN10217-7.

- **Laws:** EN10217-7
- **Materials:** Aisi 304L EN 1.4307 - Aisi 316L EN 1.4304
- **Application field:** Low pressure piping
- **Suitable for:** Impianti di trattamento acque per filtrazione, Impianti di potabilizzazione, Refrigerazione industriale, Trattamenti superficiali, Impianti di Termoregolazione, Batterie scambiotermico, Scambiatori low pressure, Cogenerazione, Movimentazione pneumatica, Reti distribuzione acqua, Gestione reti distribuzione acqua, Trattamento rifiuti, Biogas, Impianti di recupero materie plastiche
